

Audio Interface Harness Adapter

Installation Guide (for Harman Kardon equipped 2023-24 KIA SPORTAGE)

1. Ensure the car is OFF (taking any precautionary measures, such as disconnecting the car battery if necessary) and locate the HARMAN Amp under the front passenger seat.
 2. Use a medium sized flathead screwdriver to press in the latching clip & **carefully disconnect** the connectors from the Harman Amp that will attach to the harness adapter.
 3. Plug the adapter into the corresponding connectors as appropriate. Also make any connections between the adapter itself, if applicable.
 4. Refer to the harness adapter's labeling and the diagram below to connect your audio equipment.
 - Hi-Level Output wiring is labeled "OUT", with a speaker number for reference. For example, "OUT 2" is the hi-level output to the Front Left Tweeter and Speaker. Hi-level output wiring goes to the Input of your Amp/DSP/LOC. *Keep in mind the hi-level outputs from the factory amp are usually filtered (i.e. not full range audio signals). Therefore, you may want to feed the outputs to summing equipment before your amplifier(s) to get full range signals for your amp(s), if desired.*
 - Speaker Wiring (if your adapter has it) is labeled with a speaker number, in reference to the diagram below. Speaker wiring goes to the Output of your amplifier(s).
- Note: Gray or Red wire connections are + (Positive). Black wire connections are - (Negative).

OUTPUT / SPEAKER WIRING DIAGRAM

- 1 - Center Speaker**
- 2 - Front Left Tweeter and Speaker**
- 3 - Front Right Tweeter and Speaker**
- 4 - Rear Left Door Speaker**
- 5 - Rear Right Door Speaker**
- 6 - Subwoofer**

5. After making the connections you want to your audio equipment, be sure to **properly secure** any remaining/unused connections of the adapter to avoid any shorts or damage.
6. Once all your connections have been made and everything is secure, you can turn the car on to test everything out. Ensure everything looks and sounds ok.
7. Adjust your equipment settings as necessary, and that's all there is to it!

Enjoy Your New Upgrade!
